

Alfonso Imanol Macías Mararañón - (+52) 961 186 8350 - Querétaro, México.

EDUCATION

Tecnológico de Monterrey campus Querétaro

- Bachelor in Computer Science and Technology
- Aug 2022 – Dec 2026
- GPA (Mexico) : 90/100

EXPERIENCE

Full Stack HR Management Website – Sivoc

Oct 2024 – Sept 2025

Docker, Node.js, Express, MongoDB, REST APIs

- Independently managed system design, backend/frontend development, testing, and deployment processes.
- Built scalable REST API integrations and maintained application functionality using Node.js & MongoDB.
- Collaborated directly with clients to gather requirements, resolve issues, and handle challenging scenarios.

AI Chatbot Developer – Toolmex

Aug 2025 – Dec 2025

OpenAI API, OpenAI Embeddings, DigitalOcean Agents, Vector Databases, Web Scraping, Python

- Developed and deployed an AI-powered chatbot to improve customer support and catalog accessibility.
- Implemented data pipelines using web scraping, vector databases, OpenAI embeddings, and API integrations for semantic information retrieval.
- Managed cloud deployment infrastructure using DigitalOcean Droplets and cloud-based agent workflows.
- Improved chatbot response quality by manually restructuring and cleaning database information to enhance readability and retrieval accuracy.
- Implemented data processing workflows using Python for AI dataset processing and improvement.

Full Stack Enterprise Resource Planning (ERP) Software – IFC

Feb 2026 – July 2026

Next.js, Docker, WebSockets, PostgreSQL, REST APIs, Row Level Security (RLS), Server-Sent Events (SSE)

- Developing a full-stack collaborative laboratory analysis tracking platform for managing laboratory workflows and business-related analysis records.
- Independently managing system architecture, backend/frontend development, testing, deployment, and infrastructure configuration.
- Built scalable REST API integrations using Node.js, PostgreSQL, PostgREST, Kong API Gateway, and Supabase containerized services.
- Implemented real-time multi-user collaboration features using Server-Sent Events (SSE) and WebSockets, allowing simultaneous data editing and synchronization across users.
- Applied containerization, API security, and database access control practices using Docker and Row Level Security (RLS).

PROJECTS

CI/CD Automation Project (AWS + Jenkins)

Feb 2022 – June 2022

- Designed and implemented a CI/CD pipeline using AWS and Jenkins.
- Automated infrastructure deployment using Infrastructure as Code principles with CloudFormation.
- Integrated GitHub repositories with automated deployment workflows.
- Configured scalable cloud infrastructure including load balancing and deployment automation.
- Gained practical experience in DevOps, cloud infrastructure, and CI/CD practices.

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in Cloud, DevOps, and AI-driven applications. Familiar with AWS, Docker, Jenkins, CI/CD pipelines, and Infrastructure as Code concepts. Interested in Cloud Native technologies, automation, and scalable cloud solutions. Strong problem-solving skills, collaborative mindset, and eagerness to grow in cloud engineering environments.

Alfonso Imanol Macías Mararañón - (+52) 961 186 8350 - Querétaro, México.

TECHNICAL SKILLS

- Languages: JavaScript, Python, SQL
- Backend: Node.js, Express.js, REST APIs
- Databases: MongoDB, PostgreSQL, Vector Databases
- AI/ML: OpenAI API, RAG, Fine-Tuning, Prompt Engineering
- DevOps: Docker, Jenkins, AWS, CI/CD, Linux
- Tools: Git, GitHub, CloudFormation
- Concepts: Cloud Native, Automation, Scalable Infrastructure
